Technical Evaluation Dashboard

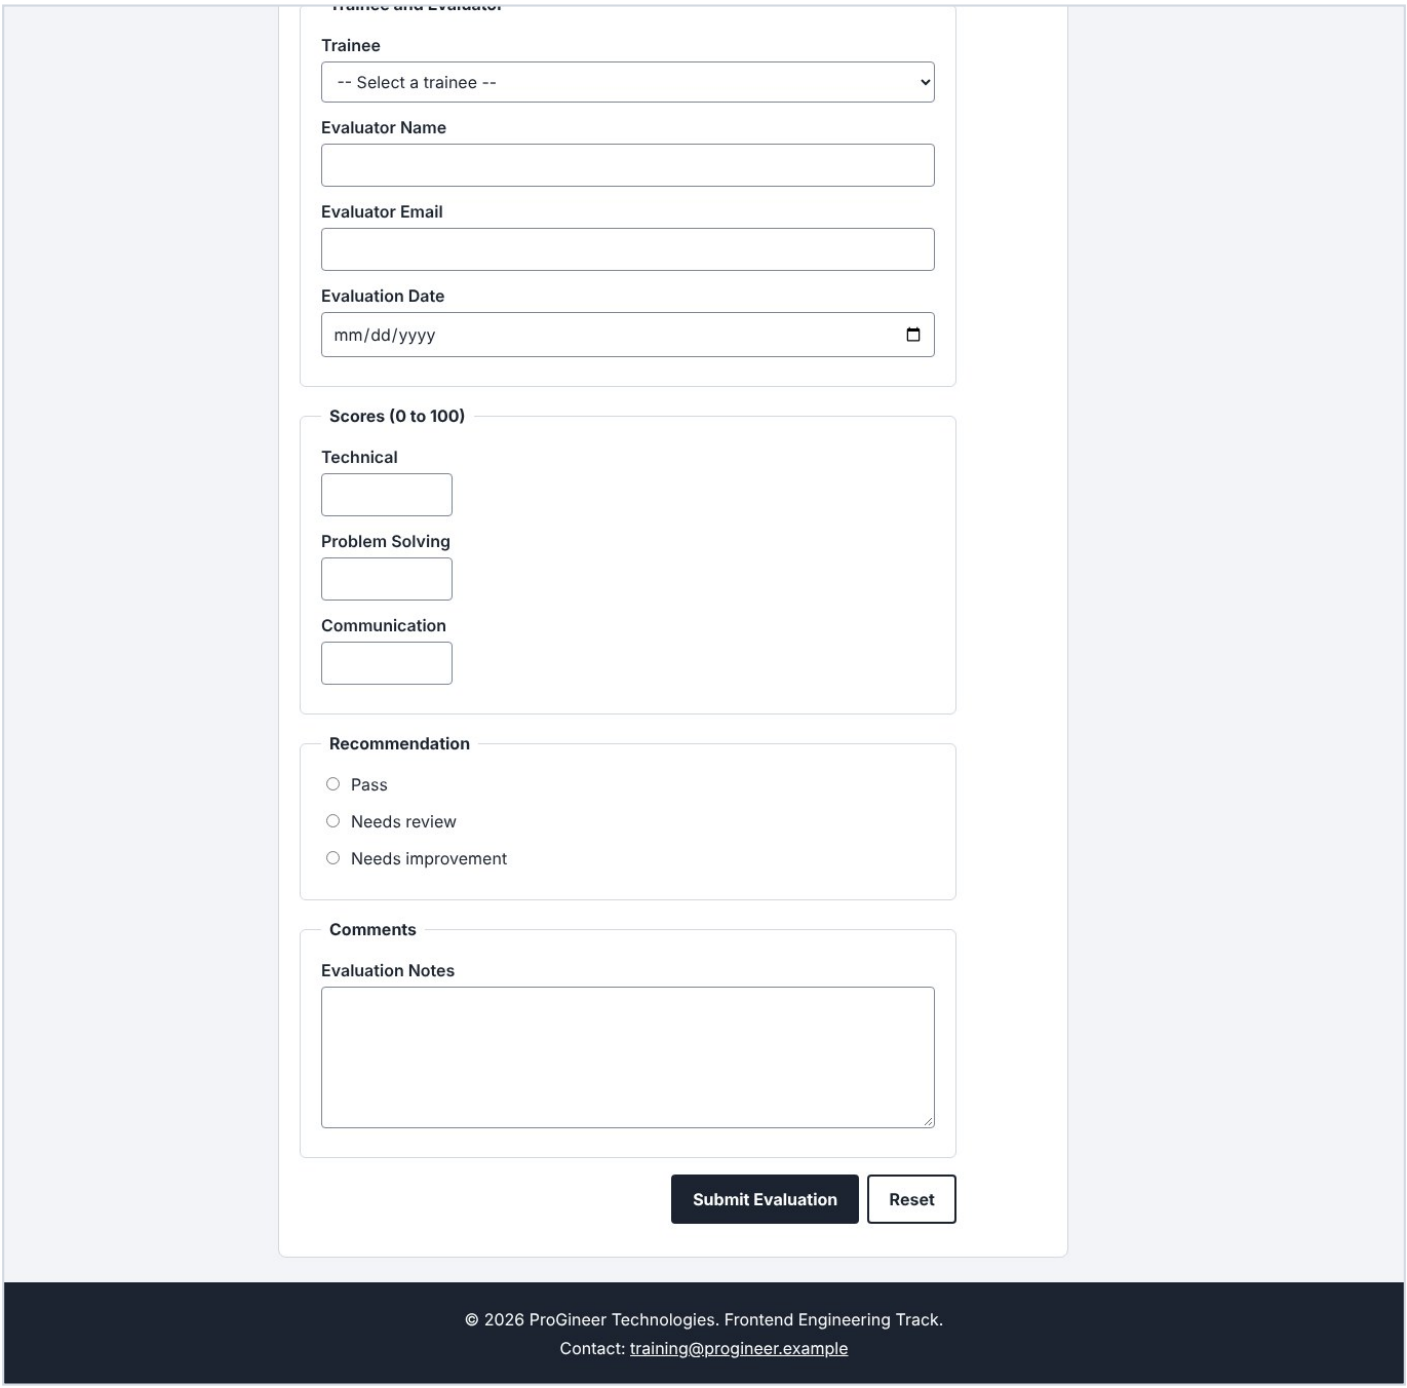

Day 2 project - HTML5 structure, core CSS and Grid/Flexbox layout - 12 Nov 2026

Desktop (1366 px): grid shell with sidebar, card gallery and activity feed

Technical Evaluation Dashboard

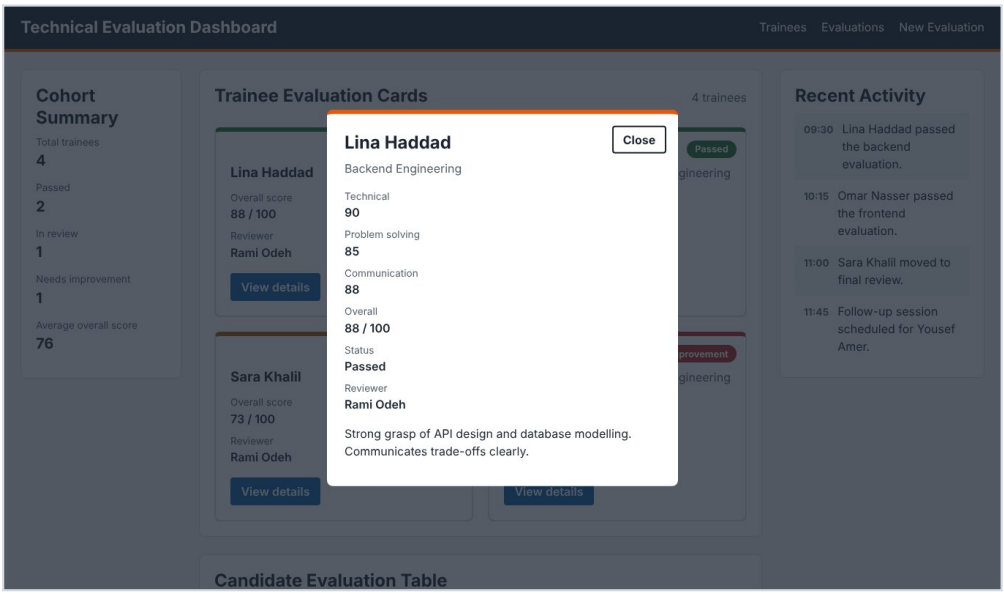

Desktop view, continued

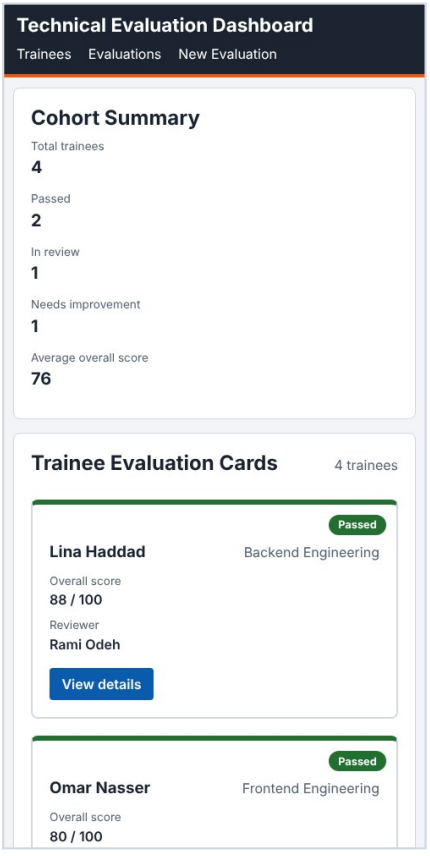

Desktop (1366 px): evaluation table and accessible evaluation form

Technical Evaluation Dashboard

Fixed detail modal and mobile layout

Detail modal overlay (position: fixed, z-index control)

Mobile (500 px): single column layout

Highlights

- Semantic HTML5 with no generic div or span wrappers
- box-sizing: border-box on all elements
- Sticky header and absolute status badges
- Fixed modal overlay opened with :target
- Grid shell using grid-template-areas
- Card gallery using auto-fit and minmax(260px, 1fr)
- Flexbox for header and component alignment
- No page-level horizontal scrolling
